KÄRU HEADE TEGUDE MUUSEUM

LOO HEAD

Taasta ja loo head!

Käru Heade Tegude Muuseumi näol on tegemist koduloomuuseumiga, mis sai loodud eraisikute initsiatiivil ja mille põhileesmärgiks on Eesti XX sajandi ajaloo säilitamine, tutvustamine ja teadvustamine erinevate näituste, kunsti- ja sotsiaalprojektide, laagrite, konverentside, töötubade ja muude ürituste korraldamise kaudu. Muuseum asub Käru alevikus, 1935. aastal ehitatud majas, mis ei olnud kordagi põhjalikult remonditud. See on Käru valla ainuke muuseum.

Mänguasjade näitus „Karud Kärus“

Mänguasjade näitus „Karud KÄRUS“ toimus Kärü koolimaja käsitöö kabinetis. Näitusel oli esitatud 88 karu eelmise sajandi erinevatest ajastutest - I Vabariigi aegadest tänapäevani. Sai näha nii isetehtud mänguasju, kui ka moodsaids Teddy Bears'e. Näitust korraldas Aljona Suržikova ning aitas kokku panna Kärü kooli huvijuht Eva Seera, kes palus õpilastel tuua oma lemmikkaru, mida lapsed hea meelega ka tegid.

Enamus karusid (39 karu) olid aga Natalie Orlhoge erakollektsioonist, kes harrastab karude kogumist 1995. aastast saadik ja nüüd teeb mänguasju ka ise. Vastukaja näitusele oli väga positiivne, kuna see oli tõesti põnev sündmus kõigi osalejate jaoks.

Whether you are a history fan, an architecture admirer, or simply seeking a one-of-a-kind getaway, Pram Museum offers unique experience

The Pram Museum in Karu invites you to come and see it all

The Pram Museum in Karu was created by a film director, Ajlona Surzhikova, and film producer Sergei Trofimov in 2018. Now this is a place that takes you back in time and it is very famous in Estonia, but tourists from abroad as well find their way to the unique museum.

The museum's collection comprises approximately 300 models (prams) from 18th-century England, aristocratic models of Central Europe, Germany, Austria, the Czech Republic, those from 19th-century Europe, a unique model dating to 1928, the first Republic of Estonia.

The museum also gives guests an historical exhibition and lets you learn about the daily lives of 18th and 19th-century Europeans. What did the outdoors of the time look like and how were the old strollers different from the current ones? During the excursions for younger visitors, we learn more on the history of toys and how the children of the past used to play.

For groups of lower and upper secondary school students, we have an historical walk in Europe, the Industrial Revolution in England, the Victorian age, the Charles time in the Commonwealth of Estonia and Estonia in the 18th and

19th centuries, the production of models during the first Republic of Estonia. History and history, term definitions of the first philosophers in the world.

From the beginning the museum functioned as a volunteer organization, the local people of Karu village supported the restoration of the buildings in the center of the village.

Ajlona Surzhikova says: "First we rented a house in the old railway station, and we did an exhibition there. Then we moved another house, the main building of the railway station. It was in a very bad condition, and we asked people to come and help us. A lot of Karu people responded and helped paint the facade, put in electricity and restore windows. Very soon we opened an exhibition about toys and prams and their evolution. Karu is in the middle of Estonia, very close to Tallinn by car or by train. Our museum is just where the train stops in Karu. And when

visitors come, they have a tour around the museum, which takes about one and a half hours, and then they always ask: where we can eat now? In 2019, we bought a house for the museum; it was a very old, Estonian workers' house from 1930. We thought that we would do an exhibition there, too, but after years of successful work in the railway station building, we understood that we need a place for groups to have a rest, to have coffee and even to sleep. In 2022, we got support from Interim Estonia Foundation for the development of services of the museum, and we built the coffee shop and installed historical flats. We called this house Karu residence.

For this great and hard job Ajlona Surzhikova received a prize from the President of Estonia, Alar Karis, as the visionary of the year 2023.
